ARC Warm Up:

Join Us for a Site Visit at Chemiepark Knapsack

To get you into the mood for the Advanced Recycling Conference and provide a hand-on perspective on recycling solutions, nova-Institute and YNCORIS, kindly invite you to an exclusive site tour at the Chemiepark Knapsack in Hürth near Cologne. The visit offers valuable insights especially for companies exploring smart industrial locations in Germany, while highlighting the site's engineering capabilities and integrated services – of interest to stakeholders focused on efficient, future-oriented industrial operations.

Tour Highlights

- Plant-Tour along the Recycling Cascade (approx. 1 hour)
  - Thermal Utilisation: EEW
  - Mechanical Recycling: Palurec
  - Advanced Sorting and Recycling: LyondellBasell
  - Property for Chemical Recycling: matterr
  - Plastics Production: LyondellBasell (PP) & Westlake Vinnolit (PVC)
- Closing Lecture and Refreshments

ADVANCED RECYCLING
Conference 2026
